As these individuals transition to full scope Medi-Cal, California has prioritized two goals: 1) Maintain PCP assignment to the maximum extent possible; and 2) Support and strengthen traditional county health providers who treat a high volume of uninsured and Medi-Cal patients. Working on establishing a stand-alone DAA with SFDPH. SFTP Site is set up. Test files have successfully been exchanged. Data will be exchanged once DAA is established.</p> <p align="center">             APL 23-031 Adult Expansion Final_Clean.pdf         </p>

**DEI:** Participating in a workgroup that consists of San Francisco Health Plan, Santa Clara Family Health Plan, Kaiser, and Anthem to discuss how we will collaborate to fulfill the DEI APL requirements below.

**Sharing and Exchange of Educational Resources**

MCPs located in the same county must coordinate DEI trainings that are reflective and encompassing of the criteria outlined in this APL so that if an MCP, Subcontractor, Downstream Subcontractor, or Network Provider completes the training for one MCP within the same county, then they will have met the obligation to complete the training for all other MCPs within the same county and can provide an attestation of training completion. All MCP HEOs within a similar geographical region or county must collaborate on DEI training criteria to ensure alignment and accurate training records.

Met with Priscilla Chu (SFDPH), Bernadette Gates (SFDPH), Hilary Gillette-Walch (SFHP), Suzanne Samuel (SFHP), and Gretchen Shanofsky (Kaiser Permanente) to initiate conversations on meaningful participation in CHA/CHIP processes and co-developing SMART Goals that align with DHCS overall BOLD GOALS. We met the DHCS requirement and can attest to having engaged in conversation and started to develop our first SMART Goal.

By December 2025, San Francisco County and San Francisco, CalAIM Managed Care Providers (MCP) Anthem, Kaiser and the San Francisco Health Plan will work collaboratively to develop targeted MCP-specific interventions to improve the percentage of children aged 0 to 30 months who receive well-child visits to meet or exceed the DHCS 2023 MPL benchmarks and decrease disparities in rates for Black/African American and LatinX children by 20% when compared with the overall rates for these measures. **Confirmed on 1/30/24**
