

IngenioRx is your new prescription drug program

Department of Health Care Services MRMIP pharmacy information

The following contains important information about your health care benefits in the Major Risk Medical Insurance Program (MRMIP).

The Anthem Blue Cross PPO plan includes the Anthem Blue Cross prescription drug program administered now by IngenioRx with these important features:

- **Lower cost:** Anthem Blue Cross has negotiated discounts with almost 90 percent of California retail pharmacies, including all of the major chain drugstores. You may choose any pharmacy, but your costs are much lower if you stay in the network using participating providers. What you pay participating providers:
 - \$5 for generic drugs through IngenioRx, your prescription drug program
 - \$15 for brand drugs through IngenioRx, your prescription drug program
- **Service:** Network pharmacies are supported by an online electronic network and will collect your copayment when you pick up your prescription. No claim forms to file!

What does this mean to me?

As a MRMIP member, you will now receive your prescription drugs through IngenioRx.

Questions?

If you have any questions, please call MRMIP at 1-800-289-6574, Monday through Friday from 8:30 a.m. to 5 p.m. Pacific time.
