Υ

- We're still ironing out details in the MOU... the things that we need to address.
- I owe you all an updated draft of the MOU.
- I'm just waiting on some final edits from council before I can get this over to you.

Joe Tansek:

- Everything seems to be going smoothly in terms of the TOC process: in terms of our bidirectional referrals.
- The only thing that's kind of lingering is what we're going to do with the SFTP, and that's something that is still waiting.

MCAH Needs Assessment:

Adult Expansion:

Anthem: Adult Expansion A26-49 is to ensure individuals transitioning from restricted scope Medi-Cal or are otherwise uninsured to full-scope Medi-Cal maintain their existing Primary Care Provider (PCP) assignments to the maximum extent possible to minimize disruptions in services. As these individuals transition to full scope Medi-Cal, California has prioritized two goals: 1) Maintain PCP assignment to the maximum extent possible; and 2) Support and strengthen traditional county health providers who treat a high volume of uninsured and Medi-Cal patients. Working on establishing a stand-alone BAA with SCC HSS. SFTP Site is set up. Test files have successfully been exchanged. Data will be exchanged once BAA is established.

DEI: Participating in a workgroup that consists of Santa Francisco Health Plan, Santa Clara Family Health Plan, Kaiser, and Anthem to discuss how we will collaborate to fulfill the DEI APL requirements below.

Sharing and Exchange of Educational Resources

MCPs located in the same county must coordinate DEI trainings that are reflective and encompassing of the criteria outlined in this APL so that if an MCP, Subcontractor, Downstream Subcontractor, or Network Provider completes the training for one MCP within the same county, then they will have met the obligation to complete the training for all other MCPs within the same county and can provide an attestation of training completion. All MCP HEOs within a similar geographical region or county must collaborate on DEI training criteria to ensure alignment and accurate training records.
