Anthem Blue Cross Cal MediConnect Plan (Medicare-Medicaid Plan)

2021 List of Covered Drugs (Formulary)

Introduction

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter drugs and items are covered by Anthem Blue Cross Cal MediConnect Plan. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by Anthem Blue Cross Cal MediConnect Plan. Key terms and their definitions appear in the last chapter of the *Member Handbook*.

- ❖ You can get this document for free in other languages and formats, such as large print, braille or audio. Call **1-833-370-7466** (TTY: **711**), **24 hours a day, 7 days a week** The call is free.
- When calling, let us know if you want this to be a standing order. That means we will send the same documents in your requested format and language every year.
- You can also call us to change or cancel a standing order. You also can find your documents online at duals.anthem.com.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: **711**), **24 hours a day, 7 days a week**. The call is free.
For more information, visit duals.anthem.com.

B. Frequently Asked Questions (FAQ)

Find answers here to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more, or look for a question and answer.

B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the Drug List are the drugs covered by Anthem Blue Cross Cal MediConnect Plan. The drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- Anthem Blue Cross Cal MediConnect Plan will cover all medically necessary drugs on the Drug List if:
 - your doctor or other prescriber says you need them to get better or stay healthy, **and**
 - you fill the prescription at an Anthem Blue Cross Cal MediConnect Plan network pharmacy.

- In some cases, you have to do something before you can get a drug (see question B4 below).

You can also see an up-to-date list of drugs that we cover on our website at duals.anthem.com or call Pharmacy Member Services at **1-833-370-7466** (TTY: **711**), **24 hours a day, 7 days a week**.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: **711**), **24 hours a day, 7 days a week**. The call is free.
For more information, visit duals.anthem.com.

B2. Does the Drug List ever change?

Yes, and Anthem Blue Cross Cal MediConnect Plan must follow Medicare and Medicaid rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (*Prior approval* is permission from Anthem Blue Cross Cal MediConnect Plan before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)

For more information on these drug rules, see question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

- a new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- we learn that a drug is not safe, **or**
- a drug is removed from the market.

Questions B3 and B6 below have more information on what happens when the Drug List changes.

- You can always check Anthem Blue Cross Cal MediConnect Plan's up to date Drug List online at **duals.anthem.com**.
- You can also call Pharmacy Member Services to check the current Drug List at **1-833-370-7466** (TTY: **711**), **24 hours a day, 7 days a week**.

B3. What happens when there is a change to the Drug List?

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available.** Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug and add the new generic drug, but your cost for the new drug will stay the same. When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.
 - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
 - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. Please see question B10 for more information on exceptions.

- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know. Please contact your prescribing doctor as soon as you get the letter.

We may make other changes that affect the drugs you take. We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug that is not new to the market **and**
 - Replace a brand name drug currently on the Drug List **or**
 - Change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 31-day supply of the drug after you ask for a refill.

This will give you time to talk to your doctor or other prescriber. He or she can help you decide:

- If there is a similar drug on the Drug List you can take instead **or**
- Whether to ask for an exception from these changes. To learn more about exceptions, see question B10.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: 711), 24 hours a day, 7 days a week. The call is free.
For more information, visit duals.anthem.com.

B4. Are there any restrictions or limits on drug coverage or any required actions to be taken to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior approval (or prior authorization):** For some drugs, you or your doctor or other prescriber must get approval from Anthem Blue Cross Cal MediConnect Plan before you fill your prescription. Anthem Blue Cross Cal MediConnect Plan may not cover the drug if you do not get approval.
- **Quantity limits:** Sometimes Anthem Blue Cross Cal MediConnect Plan limits the amount of a drug you can get.
- **Step therapy:** Sometimes Anthem Blue Cross Cal MediConnect Plan requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 13 - 121. You can also get more information by visiting our website at duals.anthem.com. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception from these limits. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please see questions B10- B12 for more information about exceptions.

B5. How will you know if the drug you want has limits or if there are required actions to take to get the drug?

The *List of Covered Drugs* on page 13 has a column labeled "Necessary actions, restrictions or limits on use."

B6. What happens if we change our rules about some drugs (for example, prior authorization (approval), quantity limits, and/or step therapy restrictions).

In some cases, we will tell you in advance if we add or change prior approval, quantity limits, and/or step therapy restrictions on a drug. See question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: 711), 24 hours a day, 7 days a week. The call is free. For more information, visit duals.anthem.com.

B7. How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by medical condition.

To search **alphabetically**, go to the Index of Covered Drugs section. You can find it by going to the list that begins on page 122, then look for the name of your drug on the list.

To search **by medical condition**, find the section labeled “Drugs Grouped by Medical Condition” that begins on page 13. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

B8. What if the drug you want to take is not on the Drug List?

If you don't see your drug on the Drug List, call Pharmacy Member Services at **1-833-370-7466** (TTY: **711**), 24 hours a day, 7 days a week and ask about it. If you learn that Anthem Blue Cross Cal MediConnect Plan will not cover the drug, you can do one of these things:

- Ask Pharmacy Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please see questions B10 - B12 for more information about exceptions.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: **711**), 24 hours a day, 7 days a week. The call is free.
For more information, visit duals.anthem.com.

B9. What if you are a new Anthem Blue Cross Cal MediConnect Plan member and can't find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 31-day supply of your drug during the first 90 days you are a member of Anthem Blue Cross Cal MediConnect Plan. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 31 days of medication.

We will cover a 31-day supply of your drug if:

- you are taking a drug that is not on our Drug List, **or**
- health plan rules do not let you get the amount ordered by your prescriber, **or**
- the drug requires prior approval by Anthem Blue Cross Cal MediConnect Plan, **or**
- you are taking a drug that is part of a step therapy restriction.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 34-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new Anthem Blue Cross Cal MediConnect Plan member.
- This is in addition to the temporary supply during the first 90 days you are a member of Anthem Blue Cross Cal MediConnect Plan.

If you experience a change in the level of care you're getting that requires you to transition from one facility or treatment center to another, you may be eligible for a one-time temporary fill of the prescription you have now. For example, if you were discharged from the hospital and given a discharge list of medications based upon the hospital formulary, you may be able to get a one-time fill of the drug. You can get the temporary one-time fill exception, regardless of whether or not you're in your first 90 days of program enrollment. Have your prescriber call us for details.

B10. Can you ask for an exception to cover your drug?

Yes. You can ask Anthem Blue Cross Cal MediConnect Plan to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, Anthem Blue Cross Cal MediConnect Plan may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior approval requirements.

B11. How can you ask for an exception?

To ask for an exception, call Pharmacy Member Services. Your Pharmacy Member Services representative will work with you and your provider to help you ask for an exception.

You can also read Chapter 9 of the *Member Handbook* to learn more about exceptions.

B12. How long does it take to get an exception?

First, we must get a statement from your prescriber supporting your request for an exception. After we get the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

B13. What are generic drugs?

Generic drugs are made up of the same ingredients as brand name drugs. They usually cost less than the brand-name drug and their names are less commonly known. Generic drugs are approved by the Food and Drug Administration (FDA).

Anthem Blue Cross Cal MediConnect Plan covers both brand-name drugs and generic drugs.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: 711), 24 hours a day, 7 days a week. The call is free.
For more information, visit duals.anthem.com.

B14. What are OTC drugs?

OTC stands for “over-the-counter.” Anthem Blue Cross Cal MediConnect Plan covers some OTC drugs when they are written as prescriptions by your provider.

You can read the Anthem Blue Cross Cal MediConnect Plan Drug List to see what OTC drugs are covered.

B15. Does Anthem Blue Cross Cal MediConnect Plan cover non-drug OTC products?

Anthem Blue Cross Cal MediConnect Plan covers some non-drug OTC products when they are written as prescriptions by your provider.

Examples of non-drug OTC products include masks, condoms and peak air flow meter.

You can read the Anthem Blue Cross Cal MediConnect Plan Drug List to see what non-drug OTC products are covered.

B16. What is your copay?

You can read the Anthem Blue Cross Cal MediConnect Plan Drug List to learn about the copay for each drug. Anthem Blue Cross Cal MediConnect Plan members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

Copays are listed by tiers. Tiers are groups of drugs with the same copay.

- Tier 1 – Medicare Part D preferred generic and brand-name drugs.
The copay is \$0.
- Tier 2 – Medicare Part D preferred and non-preferred generic and brand-name drugs.
The copay is from \$0 to \$9.20, depending on your income.
- Tier 3 – Non-Medicare, Medi-Cal state approved prescription generic and brand-name drugs.
The copay is \$0.
- Tier 4 – Non-Medicare, Medi-Cal state approved over-the-counter (OTC) drugs that require a prescription from your provider.
The copay is \$0.

If you have questions, please call **Anthem Blue Cross Cal MediConnect Plan** at **1-833-370-7466** (TTY: 711), 24 hours a day, 7 days a week. The call is free.
For more information, visit duals.anthem.com.

C. Overview of the List of Covered Drugs

The following list of covered drugs gives you information about the drugs covered by Anthem Blue Cross Cal MediConnect Plan. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 122. The Index alphabetically lists all drugs covered by Anthem Blue Cross Cal MediConnect Plan.

The first column of the chart lists the name of the drug. Brand-name drugs are capitalized (e.g., SPIRIVA) and generic drugs are listed in lower-case italics (e.g., *atenolol*).

The information in the “Necessary actions, restrictions or limits on use” column tells you if Anthem Blue Cross Cal MediConnect Plan has any rules for covering your drug.

Note: The asterisk (*) next to a drug means the drug is not a “Part D drug.” You will not be required to pay a copay for these drugs. These drugs also have different rules for appeals.

- An *appeal* is a formal way of asking us to review a decision we made about your coverage and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Medi-Cal.
- If you or your doctor disagrees with our decision, you can appeal. If you ever have a question, call Pharmacy Member Services at **1-833-370-7466** (TTY: **711**), **24 hours a day, 7 days a week**. You can also read Chapter 9 of the *Member Handbook* to learn how to appeal a decision.

C1. Drugs Grouped by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

Here are the meanings of the codes used in the “Necessary actions, restrictions or limits on use” column:

ABBREVIATION	DESCRIPTION	EXPLANATION
B/D PAR	Part B vs. Part D determination	This prescription drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
LA	Limited Availability	This prescription may be available only at certain pharmacies. For more information, please call Pharmacy Member Services at 1-833-370-7466 (TTY: 711), 24 hours a day, 7 days a week.
MO	Mail-Order Drug	This prescription drug is available through our mail-order service, as well as through our retail network pharmacies. Consider using mail order for your long-term (maintenance) medications (such as high blood pressure medications). Retail network pharmacies may be more appropriate for short-term prescriptions (such as antibiotics).
NE	Nonextended	Nonextended day supply drugs include specialty drugs. Specialty drugs fill to a 31-day supply.
PAR	Prior Authorization Required	Anthem Blue Cross Cal MediConnect Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.
QLL	Quantity Limit	For certain drugs, Anthem Blue Cross Cal MediConnect Plan limits the amount of the drug that we will cover.
ST	Step Therapy.	In some cases, Anthem Blue Cross Cal MediConnect Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
