

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION WITH REGARD TO YOUR HEALTH BENEFITS. PLEASE REVIEW IT CAREFULLY.

**Anthem Blue Cross Cal MediConnect Plan (Medicare-Medicaid Plan)
HIPAA Notice of Privacy Practices**

The original effective date of this notice was April 14, 2003. This notice was most recently revised in March 2021.

Please read this notice carefully. This tells you who can see your protected health information (PHI). It tells you when we have to ask for your OK before we share it. It tells you when we can share it without your OK. It also tells you what rights you have to see and change your information.

Information about your health and money is private. The law says we must keep this kind of information, called PHI, safe for our members. That means if you're a member right now or if you used to be, your information is safe.

We get information about you from state agencies for Medi-Cal and the Centers for Medicare & Medicaid Services after you become eligible and sign up for our health plan. We also get it from your doctors, clinics, labs and hospitals so we can OK and pay for your health care.

Federal law says we must tell you what the law says we have to do to protect PHI that's told to us, in writing or saved on a computer. We also have to tell you how we keep it safe. To protect PHI:

- On paper (called physical), we:
 - Lock our offices and files
 - Destroy paper with health information so others can't get it
- Saved on a computer (called technical), we:
 - Use passwords so only the right people can get in
 - Use special programs to watch our systems
- Used or shared by people who work for us, doctors or the state, we:
 - Make rules for keeping information safe (called policies and procedures)
 - Teach people who work for us to follow the rules

When is it OK for us to use and share your PHI?

We can share your PHI with your family or a person you choose who helps with or pays for your health care if you tell us it's OK. Sometimes, we can use and share it **without** your OK:

- **For your medical care**
 - To help doctors, hospitals and others get you the care you need

- **For payment, health care operations and treatment**
 - To share information with the doctors, clinics and others who bill us for your care
 - When we say we'll pay for health care or services before you get them
 - To find ways to make our programs better, and to support you and help you get available benefits and services. We may get your PHI from public sources, and we may give your PHI to health information exchanges for payment, health care operations and treatment. If you don't want this, please visit anthem.com/ca/privacy for more information.
- **For health care business reasons**
 - To help with audits, fraud and abuse prevention programs, planning, and everyday work
 - To find ways to make our programs better
- **For public health reasons**
 - To help public health officials keep people from getting sick or hurt
- **With others who help with or pay for your care**
 - With your family or a person you choose who helps with or pays for your health care, if you tell us it's OK
 - With someone who helps with or pays for your health care, if you can't speak for yourself and it's best for you

We must get your OK in writing before we use or share your PHI for all but your care, payment, everyday business, research or other things listed below. We have to get your written OK before we share psychotherapy notes from your doctor about you.

You may tell us in writing that you want to take back your written OK. We can't take back what we used or shared when we had your OK. But, we will stop using or sharing your PHI in the future.

Other ways we can — or the law says we have to — use your PHI:

- To help the police and other people who make sure others follow laws
- To report abuse and neglect
- To help the court when we're asked
- To answer legal documents
- To give information to health oversight agencies for things like audits or exams
- To help coroners, medical examiners or funeral directors find out your name and cause of death
- To help when you've asked to give your body parts to science
- For research
- To keep you or others from getting sick or badly hurt
- To help people who work for the government with certain jobs
- To give information to workers' compensation if you get sick or hurt at work

What are your rights?

- You can ask to look at your PHI and get a copy of it. We will have 30 days to send it to you. If we need more time, we have to let you know. We don't have your whole medical record, though. **If you want a copy of your whole medical record, ask your doctor or health clinic.**
- You can ask us to change the medical record we have for you if you think something is

wrong or missing. We will have 60 days to send it to you. If we need more time, we have to let you know.

- Sometimes, you can ask us not to share your PHI. But we don't have to agree to your request.
- You can ask us to send PHI to a different address than the one we have for you or in some other way. We can do this if sending it to the address we have for you may put you in danger.
- You can ask us to tell you all the times over the past six years we've shared your PHI with someone else. This won't list the times we've shared it because of health care, payment, everyday health care business or some other reasons we didn't list here. We will have 60 days to send it to you. If we need more time, we have to let you know.
- You can ask for a paper copy of this notice at any time, even if you asked for this one by email.
- If you pay the whole bill for a service, you can ask your doctor not to share the information about that service with us.

What do we have to do?

- The law says we must keep your PHI private except as we've said in this notice.
- We must tell you what the law says we have to do about privacy.
- We must do what we say we'll do in this notice.
- We must send your PHI to some other address or in a way other than regular mail if you ask for reasons that make sense, like if you're in danger.
- We must tell you if we have to share your PHI after you've asked us not to.
- If state laws say we have to do more than what we've said here, we'll follow those laws.
- We have to let you know if we think your PHI has been breached.
