## Anthem HealthKeepers Plus

Offered by HealthKeepers, Inc.

### How to use this directory

This book lists all the doctors, hospitals, and other health care professionals (providers) participating in our Anthem HealthKeepers Plus network as of [Date]. Use it to pick the primary care provider (PCP) who will work with you and your family to help keep you well.

**Please note this directory is provided at a regional level.** You may find statewide and up-to-date information on participating doctors, hospitals and other health care professionals at [www.anthem.com/vamedicaid](http://www.anthem.com/vamedicaid). You may also contact our Member Services department at 1-800-901-0020 (TTY: 711) for help.

To locate a network provider by using this directory, you'll need to:

- Go to the section containing the provider type you are looking for: Primary Care Physicians, Obstetrics/Gynecology, Specialists, Emergency Room Alternatives, Ancillary Providers (like lab and X-ray services), Hospital/Facilities, Mental Health/Substance Abuse Providers, Pharmacies, Manual Medical Manipulation (like chiropractic services), and Routine Care
- Turn to the page that matches your city, then select a physician listed in the section of the directory where you are looking
- Check the index section located in the back of the book if you are searching for a specific provider

### Choosing a primary care provider

Your PCP helps provide, arrange and authorize any health care services you or your enrolled family members may need. He or she will be your first stop for regular health care needs. If you need lab work, X-rays or routine tests, your PCP must order these for you.

Your PCP can be one of the following kinds of providers:

- Family Practice
- General Practice
- Internal Medicine
- Pediatrics
- OB/GYN/Specialist

Our network providers are selected after a careful review of their training and experience. When you choose a network provider, you're choosing from among the area's most respected primary care providers.

If you do not see your PCP listed, please call 1-800-901-0020 (TTY: 711). We add new network providers daily.

To change your PCP from the one listed on your identification card, please call our Member Services department at 1-800-901-0020 (TTY: 711).

If you and/or a covered family member have a serious medical problem that requires a limited course of follow-up treatment by a doctor or provider who is **NOT** part of our network, please complete the "PCP Selection Form" on the last page of this directory. You may fax the form to

## Anthem HealthKeepers Plus

the number listed at the top of the form. You may also ask your provider to complete it for you and fax it to us.

**Transition of care is considered for the following conditions:** Intensive medical treatment that has just started (e.g., newly diagnosed cancer, recent heart attack, chemotherapy, radiation therapy or recent surgery requiring post-surgery visits).

Transition of care **does not** include chronic medical conditions such as diabetes, allergies or asthma. In some cases, you may be able to stay with the provider who is currently treating you for 30 days or 90 days while we safely transition you to a network provider.

**IF** your request is approved, you and/or your covered dependent may continue to receive care from a nonparticipating doctor for a limited period of time. You and your PCP will receive a letter that will let you know whether or not your request has been approved.

### **Mental health/substance abuse services**

If you need mental health or substance abuse services, either you, a family member or your PCP may get information directly by:

- Calling the mental health toll-free number on the back of your identification card
- Making an appointment with a network provider

### **If you have questions**

If you need help choosing a PCP or want to change your PCP, call Member Services at 1-800-901-0020. If you are deaf or hard of hearing, please call 711.

You can get this information for free in other languages. Call 1-855-817-5787 (TTY: 711). The call is free.

## NC - Vance County

Generally, the providers in this section cannot be selected as a primary care provider (PCP). There are some exceptions when a specialist can serve as a PCP. Please call Member Services for additional information.

Please be advised that in the areas of Cardiology, Lab, Routine Vision and Manual Medical Intervention and Related Services, your PCP may refer to a specific group that you are required to use. Contact your PCP with any questions on these specialties.

The providers listed have agreed to participate at the locations shown. If you see a provider at a location not listed, please verify that the provider has an agreement at that location.

Some providers listed within the directory may not have been credentialed by HealthKeepers, Inc. Lack of credentialing is not an indicator of quality. It only means that we have not taken any steps to determine the qualifications of that particular provider. All of the providers have represented that they are licensed and carry levels of malpractice insurance that meet our minimum requirements. We encourage you to talk about qualification information with your providers.

## VA - Henrico County

Hospital contracts are for specified periods of time, not necessarily the calendar year. This means the participating status of any hospital listed below may change before the next directory is printed.

### Hospital and Doctor Listing Notes

Keep in mind that while a hospital may be in the Anthem HealthKeepers Plus network, it may employ health care professionals who are not in the Anthem HealthKeepers Plus network. Look for the following code to signal important information regarding network status:

**NN = department name:** Indicates that there is at least one out-of-network health care professional in that department. While you are in the hospital, you can request that all professionals involved in your health care are in-network so you can avoid additional charges later.

### Mental Health/Substance Abuse Hospitals

All care must be preauthorized prior to seeking treatment. Failure to do so may result in nonpayment of claims.

Some providers listed within the directory may not have been credentialed by HealthKeepers, Inc. Lack of credentialing is not an indicator of quality. It only means that we have not taken any steps to determine the qualifications of that particular provider. All of the providers have represented that they are licensed and carry levels of malpractice insurance that meet our minimum requirements. We encourage you to talk about qualification information with your providers.
